

# STREET LIGHTING ELECTRIC SERVICE (Governmental Authority) RATE SCHEDULE "SL-35I" (FROZEN)

Mississippi Public Service Commission Schedule No. *11		
PAGE 1 of 7	EFFECTIVE DATE March 19, 2025	DATE OF VERSION SUPERSEDED June 20, 2022

## APPLICABILITY

This rate schedule applies to electric lighting service used by any governmental authority for outdoor lighting requirements including streets, alleys, highways, bridges, and parking areas within jurisdiction of governmental authority.

## AVAILABILITY

From and after the Effective Date of December 18, 2020, this Rate Schedule shall no longer be available to new customers. Existing customers may replace lighting fixtures installed prior to the Effective Date only with like-kind lighting fixtures if offered under this Rate Schedule but shall not be allowed to select new or different lighting fixtures under this Rate Schedule. All new lighting fixtures other than those "grandfathered" herein, shall be governed by Rate Schedule LED.

Service under this rate schedule is available within limits of jurisdiction of any governmental authority where Company is operating a retail electric distribution system from which street lighting service can be furnished. Street lighting service will be provided by Company's 240-volt standard street lighting luminaires, circuits, and other facilities installed on Company's electric distribution system and will be furnished all night, every night, on a lighting schedule of approximately 4,043 hours per year.

**ENERGY ONLY SERVICE OPTION FOR CUSTOMER OWNED FIXTURES**

At the customer's option, Company will provide unmetered service to customer-owned lighting fixtures on an energy-only basis. This Energy-Only service option does not include maintenance of fixtures, and is available for service to 1) customer-owned lighting fixtures installed after May 1, 2010, and 2) lighting fixtures currently billed under the customer-owned service option (with maintenance) where the type fixture is discontinued as a Company standard fixture, and Company subsequently can no longer provide such maintenance. Company will provide service to lighting fixtures contracted under the Energy-Only service option in accordance with the following provisions:

Customer-owned street, roadway, and general area lighting fixtures which conform to the specifications of Company-owned fixtures may receive energy at the appropriate charges for each size light above. Customer-owned street, roadway, and general area lighting systems which do not conform to specifications of the Company-owned fixtures shall be charged the monthly rate per kWh as described below.

Charge per kWh 5.467 ¢

Customer-owned equipment must be approved in advance as to electric service accessibility to be eligible to receive service. The customer will provide all poles, fixtures, lamps, photoelectric controls, and circuits up to the point of connection to the Company's supply lines (point of service), and an adequate support for the Company-owned service conductors. The Company will provide an overhead service drop from its existing secondary conductors to the point of service designated by the Company for customer-owned lights. Underground service conductors will be installed in lieu of the overhead conductors at the customer's request and in accordance with the Company's Underground Electric Service Policy. The distribution system providing such service shall serve no other electrical loads except the lighting equipment eligible for this rate.
